

NotifyJoCo

In an emergency, will NotifyJoCo reach you?

NotifyJoCo is a public notification system designed to keep Johnson County residents and businesses informed about emergencies and other local events.

Using the contact information you provide, public officials will notify you of emergencies affecting your personalized locations by phone, email or text.

Log on to **NotifyJoCo.org** to update your contact information and customize your preferences to receive only the notifications you wish, including:

- Weather warnings
- Public safety warnings
- Water outages
- Disease outbreaks
- Non-emergency events

NotifyJoCo is a free public service made possible by a partnership of local governments and public utilities in Johnson County.

NotifyJoCo.org

What I need to know, when I need to know it.

NotifyJoCo

Use **NotifyJoCo** to stay informed about emergencies near home, work, school, daycare, relatives' homes and more. Additionally, you can customize your preferences to receive only the notifications you wish, including non-emergency community events such as public meetings, city sporting events, local festivals and more.

NotifyJoCo uses the contact information you provide, as well as publicly available landline numbers, to reach you during emergencies. Public officials strongly recommend that you log on to **NotifyJoCo.org** today to update your information and customize your preferences.
